

Design notes

- Add Membership fees page to user settings and add reminders
→ administrative notification of payment
- Calendar should be able to show attendance along with
→ Subscription to the calendar
→ Downloadable events for other calendars (example apple calendar and so on)
- Increase the administrative levels to the following:
→ Admin
→ Web admin
→ Conductor
→ Section leaders
- Make the colors on the upload pages more meaningful
→ some ideas based on the feedback would be
 - Make the bright red indicative of a selected option
 - Grayed-out options are indicative of unselectable options and so forth
- Include social media links onto the desktop version of the website
- Utilize a token method for signing up with changeable and disposable keys
- Perhaps removing the calendar thumbnail (being mindful of constraints within wordpress)
- Increase file upload details in the music upload (such as including an explicit drag and drop box)
- Newsletters are becoming more obsolete so less emphasis on those in the main page and should be replaced with more relevant content (image gallery for example).
