Music distribution
- Search function for music
- Separate music by season with the newest season at the top

- Should be able to upload music and repost old music that is already uploaded on the website
  → So another search function to find music when uploading
- Add a way to attach exercises and follow along audio files (.sib) to the music attachments by both members and sectional leaders

Signing up
- Log in function is available by default on the website but the sign up link is admin-delivered

Music sections
- Music can be sent to appropriate sections by tagging the sections themselves
- Changing sections is an administrative right
- People only have access to their section music (note that some may be in more than 1 section)
- Sections: Flutes, Violins, Percussion, Bass, Guitars, Viola Mandolin, Cello, Octivemandolins, Mandolins.

Communication
- Members can choose to subscribe to notifications
  → choose how they are notified (email/web/sms)
  → overwhelming preference for web-based communication
- Members should be able to notify absenteeism through the calendar
- Add an member introductory page (might wanna simplify to section leader, admin, conductor introduction page instead)
- Chat function (low on priority)

Platform usage
- Assume that members will be accessing the website through a variety of devices
